

# **MKP / MGB: Kaypakkaya is the Weapon of Victory in the Hands of Turkey and Northern Kurdistan's Proletariat!**

On the 48<sup>th</sup> anniversary of his immortality, the founder and leader of our party MKP, communist leader Ibrahim Kaypakkaya, the leader of the proletariat of Turkey and Northern Kurdistan; We honor and commemorate him with devotion to march on the red line he created, without dropping the sharp sword of Marxism, Leninism, and Maoism.

The state terror of the fascist dictatorship against the working class, the peasantry, women and all the oppressed groups, especially the Kurdish nation, continues to be rampant with the coronavirus epidemic. The ongoing invasion attacks in Kurdistan, the struggle of the working class for rights, women who are subjected to violence, harassment and death every day without exception, the imprisonment of the youth shouting academic-democratic and scientific university demands, making the peasant's lands inoperable, and opening up nature for capitalist destruction. The fascist dictatorship, which recklessly attacks all oppressed people's living space, can only be restrained and overcome by force.

The youth, who will act with this consciousness, will respond to the imposed corruption and all kinds of attacks of the fascist dictatorship by becoming Ibrahim. The youth will continue to shout the slogans of freedom and liberation in war trenches, barricades, prisons, and lecture halls.

We will proceed with the perspective of the 3rd Congress of our party, and we will shoulder the duties of the youth in every field in the fight to win the future.

The enemy thinks Kaypakkaya is dead, but he becomes an epic, a symbol of salvation, a flag in our hands. On that day, MKP, the representative of the international proletariat in our geography, becomes the ideological winning power against the revisionists, opportunists, fugitives and class enemies on the way to the liberation of the peoples in Turkey and Northern Kurdistan.

Kaypakkaya becomes a weapon against all kinds of deviations, not only on May 18th, but at all times, in all areas of the class struggle. While remembering him, this should be engraved in our consciousness. Commemorating him without considering him from an ideological and political perspective would be detaching him from his communist personality.

Commemorating the communist leader İbrahim Kaypakkaya cannot be done with academic speeches and speeches that are disconnected from practice. Commemorating him means grasping MLM with his competence that internalizes it and applies it in all areas of life.

We will commemorate İbrahim Kaypakkaya, the communist leader of the proletariat of Turkey and Northern Kurdistan, on the 48th anniversary of his immortality, with his consciousness in our brains and his determination in our hearts, by fighting in his way.

**Communist Leader İbrahim Kaypakkaya is Immortal!**
